

## With SIEMENS LV Motors Range

Take a giant leap into an energy-efficient future

### **Siemens Answers with SIMOTICS: The Electric Motor Family Setting the Pace for Performance, Quality and Energy Efficiency.**

**Optimum solution for every application**

With our Siemens low voltage motors we boost your competitiveness with reduced lifecycle cost and higher energy savings. The product spectrum for low voltage motors in India with a power rating from 0.12kW to 1750kW with voltage ranging from 380Vac to 690Vac.

Siemens Motors are optimized for (DOL) direct on line operation with wide efficiency spectrum from efficiency class of IE2 to IE4.

Siemens motors are also suitable for variable-speed converter operation.

Siemens Motors with cast iron housings are especially rugged. This makes it a first choice for applications in the toughest environmental conditions. Siemens Motors are perfect fit for the Industrial and Manufacturing Environment for pumps, fans, compressors and many more applications.

SIEMENS motors conform to latest Indian IS:12615-2011 and IEC 60034 standards.

We provide with the following range :

- 1) Champion IE series Motors
- 2) Simotics ILE7 Motors
- 3) N- compact Series Motors
- 4) Special Application Motors
- 5) Siemens Global LV Motors Range of IEC and NEMA
  1. Hazardous Motors
  2. Safe Area Motors
  3. Other motors (Roller Table, Steel Plant, Crane, Marine, Fan Ventilation)
